

TWO REPORTS ARE SUBMITTED CONGRESS BY COMMITTEE AFTER STEEL TRUST INVESTIGATIONS

WASHINGTON, August 2.—Fifteen months' investigation of the steel trust by the special committee of the house, were summarized in reports submitted to that body today—one set condemning the United States steel corporation as a gigantic monopoly in restraint of trade, the other, although accusing it of sharp practices, holding that it is not a monopoly. All the reports submit voluminous suggestions for amendment and rehabilitation of the anti-trust laws, based on evidence developed during the hearings.

The reports all refrain directly from expressing the opinion that the United States steel corporation has violated the Sherman law. An agreement to omit reference to this phase of their investigation was reached because of the present tendency of the government's suit to dissolve the corporation. The majority report, however, bristles with denunciation of the combine's methods of "stifling competition," of "extorting monopoly," and of "controlling prices" through ownership of railroads and practical monopoly of all the ore fields now available.

The so-called "Gary dinners," at which the heads of all the steel corporations' subsidiaries met with the chairman of the board of directors, Judge E. H. Gary, are bitterly scored in the main report.

"We think the conclusion is irresistible," the report says, "that the Gary dinners were instituted as a means of conveying to the entire steel and iron industry information as to the attitude of the United States steel corporation upon the

question of output and prices, and of impressing upon all engaged in the industry that it was the part of wisdom and prudence to govern themselves accordingly.

"We further believe that by this means prices were maintained, output restricted, territory divided, competition stifled and trade restrained, just as certainly, just as effectively and just as unlawfully as had been done under the discarded pooling arrangements of former years."

Three bills, outlining trust curbs, were presented with the report. One provides for amendment of the Sherman law to place the burden of proof upon defendant corporations charged with restraint of trade. Control of 30 per cent of any business is made prima facie evidence of guilt. Another provision gives each state and any injured individuals the right to bring injunction suits against a trust.

A second bill is designed to prevent "interlocking directorates" among railroad and industrial corporations. It is proposed to prohibit any officer or employee of an industrial corporation in the coal industry or manufacture of structural steel and rolling stock, from acting in a similar capacity for a railroad.

Another bill seeks divorce of industrial and common carriers by prohibiting mining or manufacturing companies from owning stock in any carrier.

The committee also recommends that the bureau of corporations report to congress in addition to the president, providing publicity of corporate combinations.

MANY WORKMEN ARE KILLED WHEN WALLS CRUMBLE

FACTORY OFFICIALS TEST
WALLS WHICH FAIL TO SHOW
REQUIRED STRENGTH

NUREMBERG, Ger., August 2.—Twenty-two workmen perished, 70 injured and many missing is the result of a machine factory collapsing today. GOOD PROGRAM ARRANGED FOR THE BENEFIT TONIGHT

FUNDS WILL BE RAISED THIS
EVENING FOR BENEFIT OF
MAZUMA FLOOD VICTIMS

The benefit performance at the Butler theater tonight gives promise of being one of the best entertainments produced in this city for many months. The town has been carefully gone over in search of talent and the many amateur vaudeville sketches should alone be worth the price of admission. In addition a special run of moving pictures has been provided by Manager Jake Goodfriend.

The Jacobys and Fred Amigo have arranged a musical sketch that gives promise of being a real treat. In addition little Miss Hamma will render a song or two. This little favorite is always appreciated as her efforts are pleasing to the extreme. Mrs. Letson Ballet will render several vocal selections.

The entire proceeds of the evening will go to the fund for the relief of the Mazuma flood sufferers. Tickets will be 25 cents each. The affair has been in charge of P. E. Keeler, J. A. Buchanan, Letson Ballet and Jake Goodfriend.

MAZUMA AND SEVEN TROUGHS VISITED SECOND CLOUDBURST

Mazuma, the apparently ill fated mining camp in Humboldt county that was devastated about two weeks ago by a cloud burst, experienced a second disaster of the same kind yesterday. The news of the affair reached the Bonanza 4 o'clock yesterday afternoon, but too late for publication. The dispatch received was as follows:

RENO, August 1.—Another cloudburst swept through Seven Troughs canyon at 1 o'clock today. The telephone wires between Lovelock and Mazuma were carried down by the flood, but before being placed out of commission the report was received that a five-foot wall of water was sweeping through the canyon.

Just before midnight last night another flood of water came down the canyon. The survivors of the recent flood rushed panic stricken for the hillsides. Many were barefooted and in their night garments. The people of Seven Troughs are bordering on hysteria. No one was injured.

Joe Frankoviz finished second in the race with Victor Galbraith third.

WHITE CAPS AT MANHATTAN HAS STRUCK LEDGE CONTINUATION IN LOWEST LEVEL MINE WORKINGS

Special to the Bonanza

MANHATTAN, August 2.—The White Caps has the big thing on the 250 level and no question about it. For over a week the operators have been in the shoot that by its production on the upper levels made the name of White Caps famous, but owing to feared irregularity and to be ultra-conservative they have been loath to make rash statements in giving the news out. Even now they declare that their values hardly measure up to the best on the upper levels, but that is not to be expected when the shoot is first tapped for several feet into it.

Superintendent McCarthy stated to your correspondent that there was not a doubt of the present shoot being the main one and that persons who had pinned their faith on White Caps had not misplaced it.

The shoot was tapped at a distance of 25 feet west of the shaft by a drift on the ledge. Its width varies, but in a general way it may be said that there is four feet of an excellent grade of milling ore that will average up with previous mill runs of the White Caps. It has all the earmarks in fact of a big showing and a few feet more without a question will reveal a story for which the people of Manhattan and especially those financially interested in White caps have long been waiting.

MEAT PRICES START TO SOAR CHICAGO YARDS

WARNING ISSUED BY MEAT
TRUST ON DISSOLUTION IS
FULFILLED

CHICAGO, August 2.—The warning issued that meat prices would soar after a dissolution of the beef trust has been fulfilled. Prices at the stock yards today were the highest ever. Beef was \$9.85 and it is predicted \$10 per hundred weight will be in force next week.

DENVER, August 2.—The beef prices will probably go higher still, owing to a shortage of cattle in the west and northwest.

NEW YORK, August 2.—Restaurant keepers have notified their patrons that tomorrow meat prices will be raised from five to ten cents per portion.

NYE COUNTY HAS GOOD SUM IN TREASURY

FIGURES COMPILED BY COUNTY
TREASURER SHOWS TOTAL
\$124,615.45 ON HAND

Nye county has on hand in the county treasury the sum of \$124,615.45, according to figures compiled by County Treasurer Frank P. Mannix. On July 1 the cash in the treasury amounted to \$121,638.56. During the month the general receipts from the county totaled \$6,878.42, while \$9,959.78 was received for the schools. The total receipts of the month were \$15,989.20, bringing the cash in the treasury up to a grand total of \$127,536.76.

The disbursements for July were as follows: County, \$11,839.60; schools, county, \$429.63; schools, state, \$632.74; library, \$19.34. Total, \$12,921.31.

The cash on hand in the Tonopah town fund totals \$12,746.38, while the Rhyolite town fund boasts of the total sum of \$15.55.

TONOPAH LODGE MAN BURIED AT CARSON

CLOUDBURST DAMAGE

ROCK SPRINGS, Wyo., August 2.—Crops in this section were washed out and small property loss was suffered by water from a cloudburst that broke over the Point of Rocks section late last night. No loss of life is reported.

The reason progress in driving this drift has been slow is that the machine drills have not been employed there. They have been kept busy in the stopes, supplying the ore which has been keeping the Associated mill busy. Playing a lone hand in this regard is the White Caps' long suit and it can keep it up on present reserves for the next eight months. The strike on the 230 adds to that an indefinite amount that with development will mean that the mill will require no other ore.

The extreme eastern slope is still in a world of ore, it being of enormous dimensions. It is producing a heavy tonnage now and will continue to do so for an unlimited period in the future. The rock averages around \$20, but that from the main stope coming up simultaneously sweetens it up into the thirties or forties.

There is a tremendous buying movement in White Caps stock. It is being sought by Manhattanites galore. Several are doing it under the cloak of a bear movement, but they are buying it just the same and never letting a share slip them that can be touched up by fair or foul means. Quietly it is conceded as a 50 cent stock in the immediate future and buyers propose to be in for the big rise. It is the stiffest thing on the board, in spite of bear tactics.

STEEL WORKERS ARE BEING URGED TO UNIONIZE

AMERICAN FEDERATION OF LA-
BOR SENDING OUT CIRCULARS
BROADCAST

WASHINGTON, D. C., August 2.—Following up the steel report, denouncing labor conditions in steel mills, the American Federation of Labor is sending circulars broadcast urging all steel workers to unionize. Foreign workers are asked to tell their friends abroad to stay away from America for a year or two.

WORK STARTS IN NEW GOLDEN CROWN NEXT MONDAY

COMPANY HAS BEEN REORGANIZED AND WILL SINK SHAFT, 500 FEET DEEPER

The New Golden Crown Mining company will resume work on the company ground Monday, according to advices brought to Tonopah today by E. H. Mead, who returned this morning from Salt Lake. This company was formerly the Golden Crown Mining company, which has been completely reorganized. The old stockholders have been invited to exchange their shares at the ratio of two shares of the old stock for one share of the new stock.

The company has a shaft down 600 feet and this will be immediately extended in depth for an additional 500 feet when crosscutting will be taken up in search of the Midway and Merger veins. These veins trend directly toward the New Golden Crown ground.

The stock of the company is being offered at 25 cents a share and quite a demand has sprung up for the certificates. The company has the following officers: R. G. Schuler of the Salt Lake law firm of Dickson, Ellis and Schuler, president; Herbert Cohn, secretary; McCornick & Co., treasurer.
